ŞEHREMİNİ GRUP

2011 yılında ticari faaliyetlerine başlayan Şehremini Grup temel olarak Gayrimenkul Geliştirme, Enerji ve Sağlık sektörlerinde faaliyet göstermektedir. Bu sektörlerde yer alan şirketleri aracılığıyla ticari faaliyetlerine devam etmektedir. İlgili sektörlerdeki şirketlere ilişkin bilgiler ise aşağıda sizlerle paylaşılmaktadır:

2011 yılında faaliyetlerine başlayan, kamu kurumları ve özel sektöre yönelik proje ve müşavirlik hizmetleri vererek gelişimine devam eden **ŞEHREMİNİ PROJE DAN. İNŞ. MİM. MÜH. SAN. TİC. LTD. ŞTİ.** kadrosunda yer alan tecrübeli şehir plancıları, mimarlar, iç mimarlar ve alanında tecrübeli mühendislerle sektörde hizmet sunmaktadır. **Şehremini Proje olarak;** Organize Sanayi Bölgeleri, Özel Endüstri Bölgeleri, Yenilenebilir Enerji Projeleri ve özel sektör yatırımları geliştirilmiş yine hastane, adalet sarayı, kamu hizmet binaları ve Eğitim yapıları projelendirilerek sonuçlandırılmıştır.

Kuruluşundan bugüne kadar proje geliştirme hizmetleri veren firmamız, firma ortaklarının aldığı karar sonrası 2017 yılı Ocak ayında geliştirdiği projelerde yüklenici olarak da yer almak amacıyla **ŞEHREMİNİ YAPI İNŞ. KUR. HİZM. SAN. VE TİC. A.Ş.** aracılığıyla yapım ve taahhüt sektörüne katılarak Gayrimenkul Geliştirme alanındaki yatırımlarına devam etmiştir.

Dünyanın ve ülkemizin gelişimiyle birlikte artan enerji ihtiyaçlarını düşünerek, dünyada artan yeşil enerji yatırımlarında yer almak ve Paris İklim Anlaşması ile dünyanın yeşil enerji dönüşümünden pay almak adına 2021 Eylül ayında şirketimizin de kurucusu olduğu **MCA YENİLENEBİLİR ENERJİ YATIRIM SAN. VE TİC. A.Ş.** kurucu ortak olarak yer almış ve yenilenebilir enerji yatırımlarına yönelik proje geliştirme, uygulama ve işletme süreçlerine yönelik çalışmalara başlamıştır. **MCA Enerji olarak;** Ülkemizin önde gelen Şirketlerinden Nuh Çimento, Efesan Grup ve Koç Holding iştiraki Entek Elektrik ve Ford Otomotiv A.Ş gibi şirketlerle halihazırda yenilenebilir enerji projeleri yürütmektedir.

2020 yılı kuruluş sürecinden bu yana, planlama ve fizibilite çalışmalarında yer alınan Balıkesir ili Bandırma ilçesinde kurulan Marmara Yüksek Teknoloji ve Makine İhtisas OSB içerisinde kurulmuş ve 5.000 m2'lik ön tahsis yapılan sanayi parseli üzerinde, **ACS MARMARA İNŞ. İTH. İHR. SAN. TİC. A.Ş.** olarak Türkiye ve Dünya ekonomisindeki gelişmeleri de dikkate alarak yerli ve milli üretimin yanında ihracat yapılması hedeflenmektedir.

Yine içinden geçtiğimiz pandemi süreci sonrası; insan hayatının temel ihtiyacı olan sağlık hizmetinin tüm aşamalarının en hızlı, en etkili, en kapsamlı ve en kolay ulaşılabilir şekilde olmasını sağlamak ve ilaç temini, nitelikli sağlık hizmeti sunmak gayesiyle 2022 Ağustos ayında **ENR İLAÇ MEDİKAL SAĞLIK TURİZMİ İTH. İHR. SAN. TİC. A.Ş.** bünyesinde ortak olarak yer alarak sağlık alanındaki yatırımlara başlanmıştır. A gurubu seyahat Acentası belgesi sahibi olarak Sağlık Turizmi hizmetleri verme imkanına sahip olan şirketimiz yine Türkiye İlaç ve Tıbbi Cihaz Kurumu'ndan 2023 yılı Eylül ayında alınan ruhsat ile Eczacı deposu da hizmet girmiş ve ilaç ve medikal ürün ticaretine başlanmıştır.

Şirket ortakları olarak içinde yaşadığımız dünya ve ülke dinamiklerini takip ederek, farklı sektörlerde, imkanlar çerçevesinde yatırım yapmaya çalışıyor, bu sayede ülkemiz ekonomisine ek istihdam imkanları ve katma değer katma hedefi ile çalışmalarımıza devam ediyoruz...

ŞEHREMINİ GROUP

Started commercial activities in 2011, Şehremini Group mainly operates in Real Estate Development, Energy and Healthcare sectors. Through its companies in these sectors, Şehremini Group continues its commercial activities. Information on companies in the relevant sectors is provided below: **ŞEHREMINİ PROJE DAN. İNŞ. MİM. MÜH. SAN. TİC. LTD. ŞTİ.** which started its activities in 2011 and proceeds to develop by providing project and consultancy services for public institutions and private sector, offers services in the sector with experienced city planners, architects, interior architects and experienced engineers in the field. **As Şehremini Project;** Organized Industrial Zones, Private Industrial Zones, Renewable Energy Projects and private sector investments have been developed and also, hospitals, courthouses, public service buildings and education facilities have been designed and finalized.

Our company, which has been providing project development services since its establishment, continued its investments in Real Estate Development following the decision taken by the company's partners in January 2017, by joining the construction and contracting sector through **ŞEHREMINİ YAPI İNŞ. KUR. HİZM. SAN. VE TİC. A.Ş.** in order to take part as a contractor in the projects it developed.

Considering the increasing energy needs with the development of the world and our country, to be involved in the ever-increasing green energy investments and to take a share in the green energy transformation of the world with the Paris Climate Agreement, **MCA YENİLENEBİLİR ENERJİ YATIRIM SAN. VE TİC. A.Ş.**, of which our company is the founder, took place as a founding partner in September 2021 and started to work on project development, implementation and operation processes for renewable energy investments. **As MCA Enerji,** we currently carry out renewable energy projects with leading companies in our country such as Nuh Çimento, Efesan Group, Ford Otomotiv A.Ş and Koç Holding subsidiary Entek Elektrik.

Since the foundation in 2020, as **ACS MARMARA İNŞ. İTH. İHR. SAN. TİC. A.Ş.**, which has been involved in planning and feasibility projects and established on a pre-allocated industrial parcel of 5,000 m2 in the Marmara High Technology and Machinery Specialized Organized Industrial Zone located in the Bandırma district of Balıkesir province, we aim to export along with the domestic and national production taking into account the economic developments of Turkey and the world.

In the aftermath of the pandemic, with the aim of ensuring that all stages of health care, which is the basic need of every human, are provided in the fastest, most effective, most comprehensive and most accessible way, and to provide medication supply and qualified health care services, we became a partner of **ENR İLAÇ MEDİKAL SAĞLIK TURİZMİ İTH. İHR. SAN. TİC. A.Ş.** in August 2022 and started to invest in the field of health. Our company, which has the opportunity to provide Health Tourism services as a Group A Travel Agency certificate holder, has also introduced a pharmaceutical warehouse service with the license obtained from the Turkish Medicines and Medical Devices Agency in September 2023 and started to trade pharmaceuticals and medical products.

As company partners, we try to invest in different sectors in line with our own means by following the dynamics of the world and the country we live in, and in this way, we carry on our work with the aim of providing additional opportunities for employment and contribution to our country's economy.

ANKARA YILDIRIM BEYAZIT UNIVERSITY STUDENT LIFE CENTER

It is a Student Life Center project of Yıldırım Beyazıt University planned to be built in Dumlupınar neighborhood of Çubuk district of Ankara province. The project has a construction area of 13,500 m², consisting of an administrative building, a dining hall, a sociocultural facility for students, and a conference room. Within the project, the basic functions (administrative building, cafeteria, commercial building and conference hall) interrelated with each other are spatially linked through the social backbone axis. There is a refectory building at the main entrance to the project area. By leaving a semi-open area in the middle of this mass, an uninterrupted circulation was ensured from the main road to the axis of the social spine. The pedestrian path that intersects the axis of the main spine horizontally separates the refectory mass from the conference hall and the commercial building. By limiting the vehicle access areas to remain on the outer walls of the structures, the middle axle has been completely transformed into a student-oriented living center. Thanks to the open space constructions, the building density was lightened and attention was paid to the fact that pedestrian traffic in different directions was continuous and fluid, and different perspectives were presented within area. Thanks to the intersection points of randomness as a phenomenon in the project, it has been turned into a meeting point for people. However, in order to have a canopy in hot weather conditions, pergolas were used in open areas. The pergolas have been integrated into the project by observing the vertical-horizontal balance of the existing layout plan. This axis of the social spine, designed as the center and breathing point of socialization, was directed to the current stream and water-nature integrity was established. At the same time, it was possible to establish a relationship between different buildings in the campus as a center of attraction.

KAHRAMANMARAS PAZARCİK 125 BED STATE HOSPITAL

It is a 125-bed state hospital project with a construction area of approximately 28800 square meters, planned to be built within the borders of Pazarcık district of Kahramanmaraş province. Emergency Service, Polyclinic, Operating Room, Palliative Care Unit, Burn Unit, SdI, Intensive Care Unit, Delivery Room, Chemotherapy, Dialysis, Dental Polyclinic and Blood Center were designed in the hospital. An open parking lot for 259 vehicles and a helpist were arranged within the boundaries of the land. An open parking lot for 259 vehicles and a helpist were arranged within the boundaries of the land.

Project Information

Land Area: 25.002.18 m²

Building Area: 5055.02 m²

Number of Floors: B+Z+5+D

Total Construction Area: 28,802,46 m²

Construction Type: Reinforced Concrete

KONYA HUYUK 25 BED STATE HOSPITAL

It is planned to be built within the borders of Hüyük district in Konya province. It is a 25-bed state hospital project with a construction area of approximately 6,000 square meters. The hospital, which includes emergency service, polyclinic, dialysis, dental polyclinic, operating room, burn unit, consists of 2 blocks. An open parking lot for 60 vehicles and a helipist were designed within the boundaries of the land.

Project Information

Land Area: 14,868.25 m²

Building Seating Area: 1670,42 m²

Number of Floors: B+Z+2+D

Total Construction Area: 6027.39 m²

Construction Type: Reinforced Concrete

RTUK ISTANBUL REGIONAL REPRESENTATIVE OFFICE SERVICE BUILDING

It is a project of the Rtuk Istanbul Regional Representative Office Service Building with a construction area of about 2000 square meters, planned to be built in Besiktas district of Istanbul province. It consists of a total of 9 floors, including 2 basement floors plus 6 floors. In order to provide a more spacious working environment for its users and to make more use of daylight, units have been designed that can be used as open offices. In addition, two meeting rooms have been designed where members of the upper board can hold meetings and can be used at press conferences.

Project Information

Land Area: 525.46 m2

Building Floor Area: 220.77 m2

Number of Floors: 2B+Z+6

Total Construction Area: 1986.27 m2

Construction Type: Reinforced Concrete

Decking Area: 2B+Z+6

Total Construction Area: 1986.27 m2

TOKAT FAMILY SERVICE BUILDING OF THE PROVINCIAL DIRECTORATE OF LABOR AND SOCIAL SERVICES

Tokat province is a Service Building project planned to be carried out within the boundaries of Topçubaşı District, with a construction area of about 5,400 square meters, the Coordination Center of the Provincial Directorate of Family, Labor and Social Services, the Directorate of Social Services and Children's Homes. The Dec canal and the memorial tree located within the boundaries of the plot are designed to be protected. an outdoor parking area for 40 cars has been arranged.

Project Information

Land Area: 6.990.12 m²

Building Area: 1.454,10m²

Number of Floors: B+Z+2

Total Construction Area: 5.432.35 m²

Construction Type: Reinforced Concrete

TOKAT INTERNATIONAL FRESH VEGETABLES AND FRUIT CASE

Tokat International Wholesale Fresh Vegetable and Fruit Market Hall Project was designed by the Tokat-Turhal-Zile-Pazar Municipalities International Wholesale Market Facilities Management Association (TUHAB) to cover an area of approximately 300,000 square meters. It is envisaged that construction will be carried out with a closed area of approximately 96.480 m2. In the project, broker units, merchant municipalities, hotel building, administration building, mosque, bazaar, gas station, slaughterhouse, cold storage, drying oven should be in a state complex such as all units are designed. an open parking area of 17000 square meters is planned.

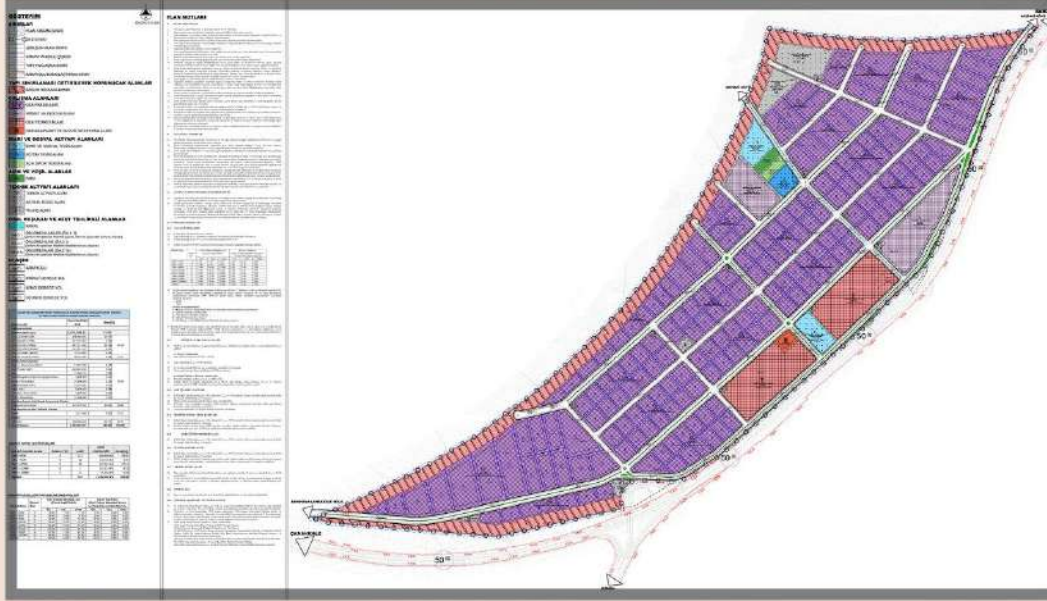

Using Status

- Broker Unit - 198 units
- Merchant Warehouse - 52 Pieces
- Administration Building-R&D-Laboratory - 3368 m2
- Bazaar - 36 Shops
- Auction Area-Market Place - 10632 m2
- Packing Area - 1800 m2
- Cold Storage - 2724 m2
- Drying Oven - 2045 m2

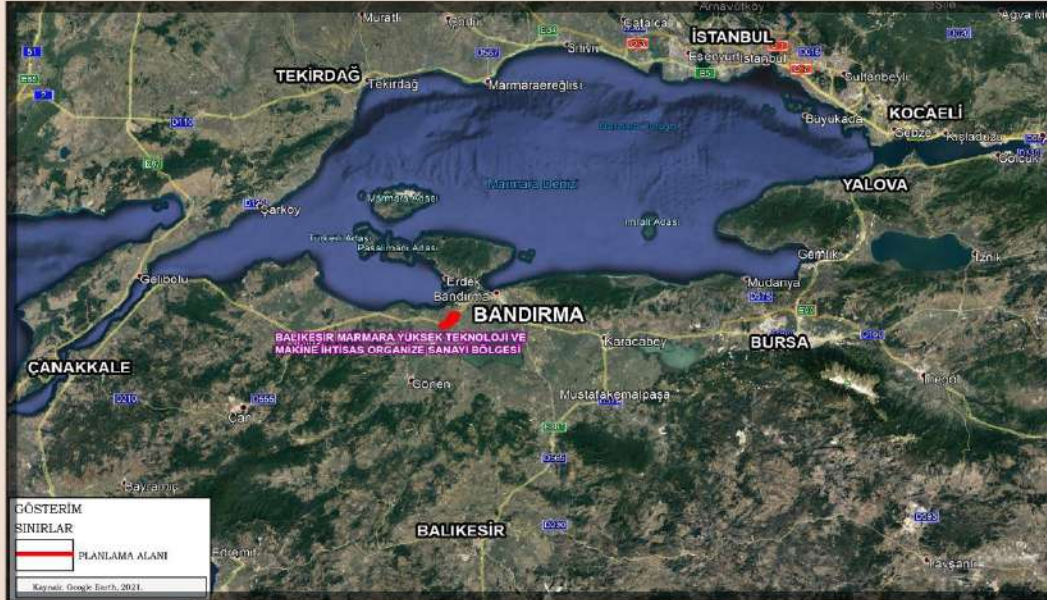

- Fire Department - 430 m2
- Case Warehouse Washing - 1375 m2
- Garbage Collection Area - 4400 m2
- Hotel - 48 Persons
- Mosque - 1500 people (with courtyard)
- Gas station - 1500 m2
- Weighbridge - 4 Pieces
- Parking lot - 17000 m2

MARMARA HIGH-TECH AND MACHINERY SPECIALIZED ORGANIZED INDUSTRIAL ZONE ZONING PLAN'

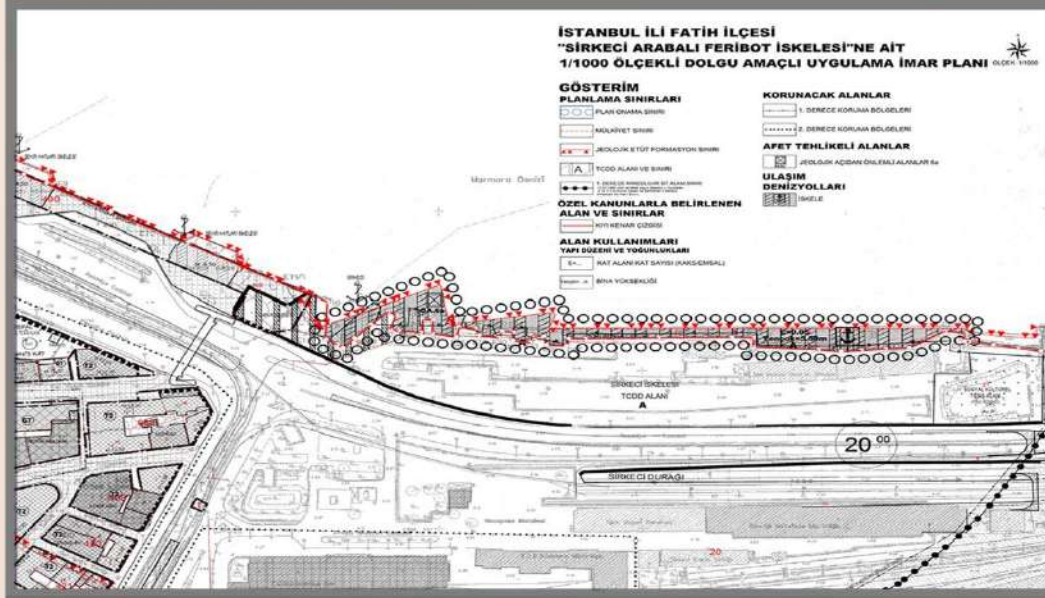

The planning area consists of a total area of 2,202,939 m². In industrial areas, E=100 Maximum Construction Height on a Plot: Unrestrained (height required by the production technology). In addition the setback distance of the industrial parcels in the area are regulated according to the "Organized Industrial Zones Zoning Plan Specification" published in the Official Gazette dated 06.08.2020 and numbered 30854. The common areas belonging to the Organized Industrial Zone Area are 255,378.95 m² and approximately 11.59% of the area has been allocated. The Organized Industry Directorate is authorized to implement and supervise the plan notes in the field of planning, and the provisions of the Organized Industrial Zones Law No. 4562, the Zoning Law No. 3194, the Organized Industrial Zone Implementation Regulation, the Organized Industry Zoning Plan Specification and the Spatial Plans Construction Regulation shall be complied with.

SİVAS PROVINCE KANGAL AND GÜRÜN DISTRICTS KANGAL WIND POWER PLANT (WPP) PROJECT ZONING PLAN AND CHANGE

JUSTIFICATION OF PLAN CHANGE

Within the framework of the work carried out for the tribune places remaining within the scope of the project, the tribune locations were re-evaluated, and within this framework, taking into account the coordinates of the new tribune number 40, which is out of the previously approved zoning plan, and the road connection connecting the tribune area to the Kangal-Gürün road, a 2-sheet application zoning plan plan change has been made. Other tribunes have also been relocated, but since the tribunes in question remain within the Tribune areas specified in the previously approved zoning plan, they were not shown as a change in the plan study.

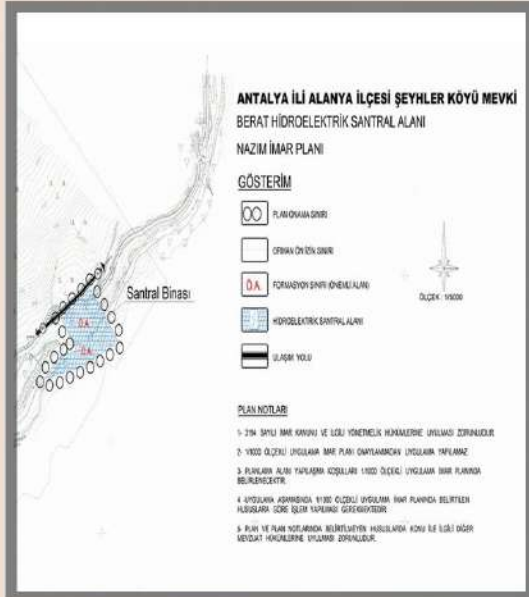

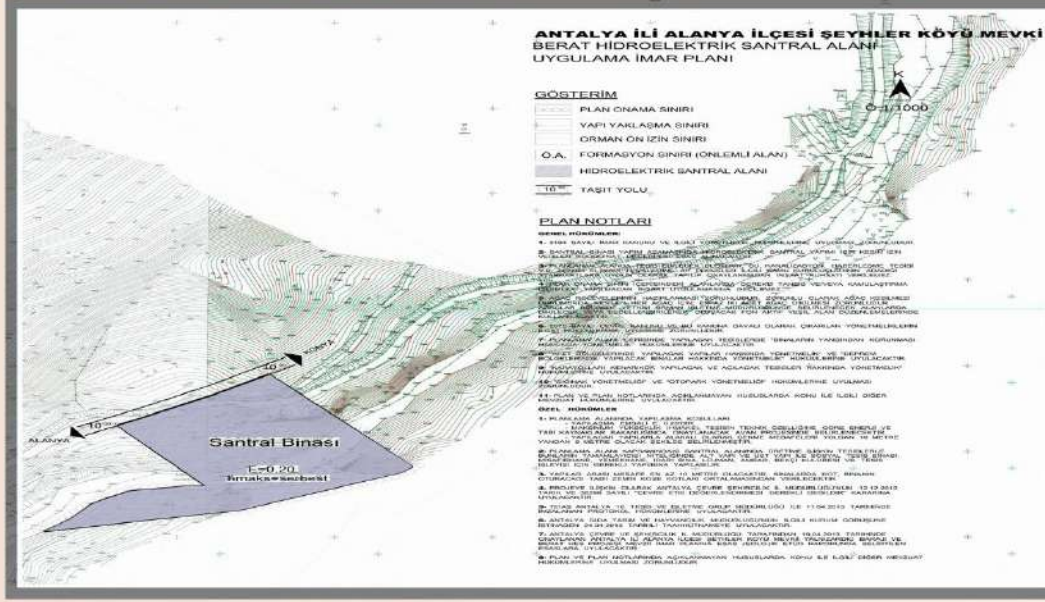

It is a 128 MW Kangal Wind Power Plant to be built in Kangal and Gürün Districts located on the border of Sivas province. Kangal Wind Power Plant (RES), located within the boundaries of Kangal and Gurun districts of Sivas Province, has been approved by the Sivas Provincial Special Administrative Council by decision No. dated 04 dated 08.01.2014 after receiving the opinions of the relevant institutions and organizations. Within the scope of the Kangal Res Project, it is aimed to install 64 Wind Bleachers with a capacity of 2 MW each. In accordance with the zoning plan approved within the scope of the project, the installation of 22 bleachers has been completed and electricity generation has been started. The Construction Conditions in the Switchgear Center and Switchgear Control Building Area are Precedent=0.20 Maximum Construction Height on a Plot: = 6.50 m.

ALANYA DISTRICT OF ANTALYA PROVINCE-KONYA PROVINCE HADİM DISTRICT SEYHLER VILLAGE LOCATION LONELARDIÇ DAM BERAT HYDROELECTRIC POWER PLANT AREA ZONING PLAN

PLAN DECISIONS

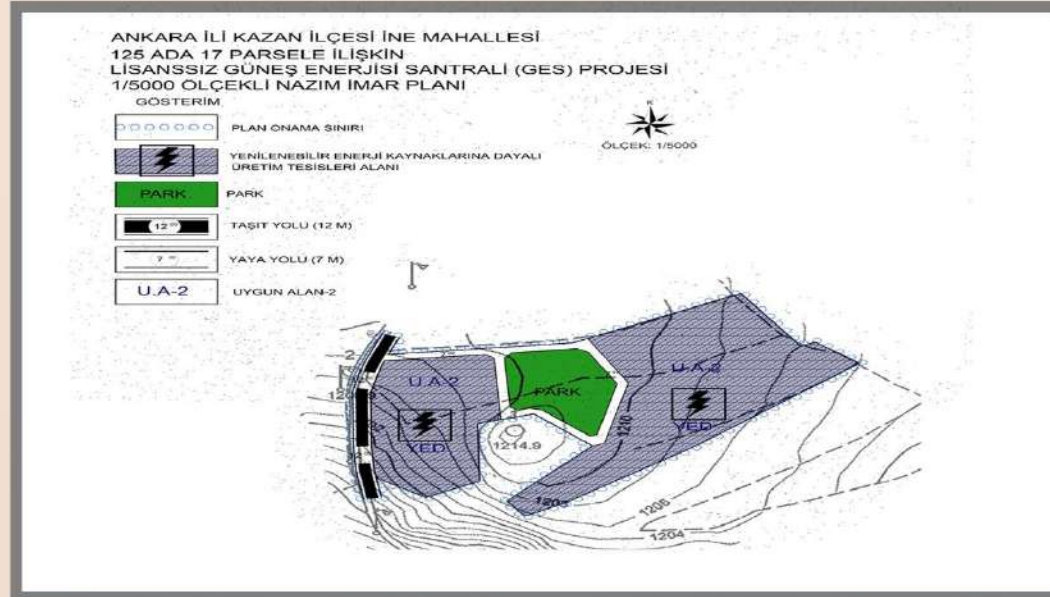

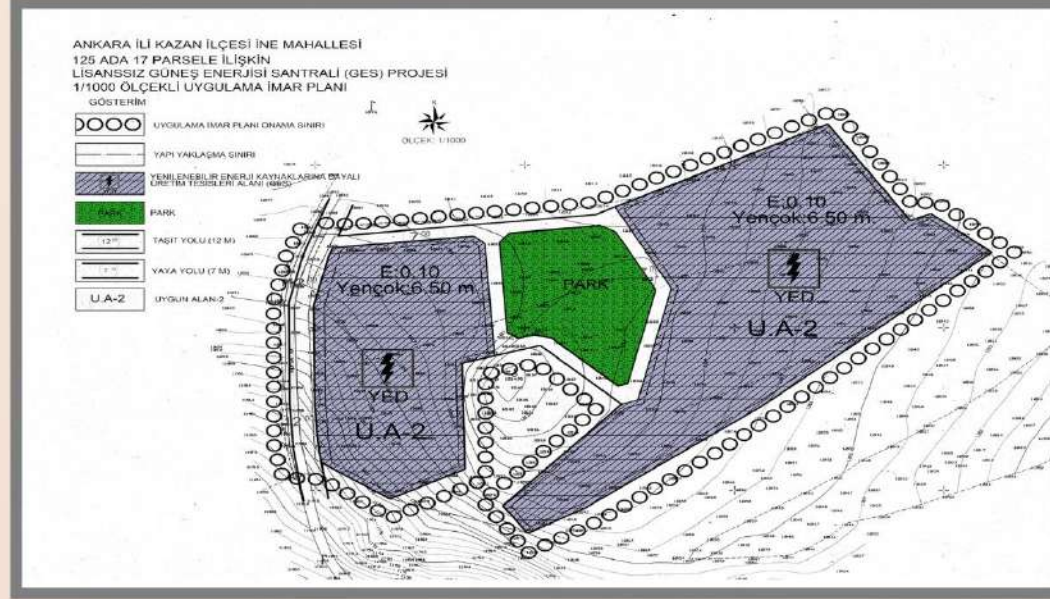

The construction conditions in the power plant area have been determined as $Precedent=0.20$, and the maximum height will be determined by the preliminary project to be approved by the Ministry of Energy and Natural Resources, according to the technical characteristics of the facility. Towing distances were determined to be 10 meters from the road and 5 meters from the side. The area of the power plant is determined as 18,324.58 m² in the plan. In addition, the roads that will provide access to the facility are shown in the plan in a way that will provide connection to the existing roads in the area. The part between the service roads to be built in the area where the main power plant is located and these structures is shown as forest area in the plan, since no undefined area can be left in the zoning plans and it is under forest property.

The location of the Yalnızardıç Dam and Berat Hydroelectric Power Plant Project, which is one of the projects developed within the scope of meeting the energy needs of our country, was determined by taking into account many factors such as climate, precipitation, geology, ground condition, environment, topography, transportation, and property, and was designed after extensive and detailed engineering studies has been projected. The scope of the plan is the Lonardıç Dam and the Berat Hydroelectric Power Plant with a power of 32.5 MW, which will be built on the Gevne stream in the Göksu River basin located on the provincial border of Antalya. The planning area is outside the boundaries of the municipality and the application area and is under the responsibility of the Antalya Provincial Special Administration.

Dünyanın ve ülkemizin gelişimiyle birlikte artan enerji ihtiyaçlarını düşünerek, dünyada artan yeşil enerji yatırımlarında yer almak ve Paris İklim Anlaşması ile dünyanın yeşil enerji dönüşümünden pay almak adına 2021 Eylül ayında şirketimizin de kurucusu olduğu **MCA YENİLENEBİLİR ENERJİ YATIRIM SAN. VE TİC. A.Ş.** kurucu ortak olarak yer almış ve yenilenebilir enerji yatırımlarına yönelik proje geliştirme, uygulama ve işletme süreçlerine yönelik çalışmalara başlamıştır. MCA Enerji olarak; Ülkemizin önde gelen Şirketlerinden Nuh Çimento, Efesan Grup ve Koç Holding iştiraki Entek Elektrik ve Ford Otomotiv A.Ş gibi şirketlerle halihazırda yenilenebilir enerji projeleri yürütmektedir.

Considering the increasing energy needs with the development of the world and our country, to be involved in the ever-increasing green energy investments and to take a share in the green energy transformation of the world with the Paris Climate Agreement, **MCA YENİLENEBİLİR ENERJİ YATIRIM SAN. VE TİC. A.Ş.**, of which our company is the founder, took place as a founding partner in September 2021 and started to work on project development, implementation and operation processes for renewable energy investments. As MCA Enerji, we currently carry out renewable energy projects with leading companies in our country such as Nuh Çimento, Efesan Group, Ford Otomotiv A.Ş and Koç Holding subsidiary Entek Elektrik.

ENR İLAÇ MEDİKAL SAĞLIK TURİZMİ İTH. İHR. SAN. TİC. A.Ş.

Yine içinden geçtiğimiz pandemi süreci sonrası; insan hayatının temel ihtiyacı olan sağlık hizmetinin tüm aşamalarının en hızlı, en etkili, en kapsamlı ve en kolay ulaşılabilir şekilde olmasını sağlamak ve ilaç temini, nitelikli sağlık hizmeti sunmak gayesiyle 2022 Ağustos ayında **ENR İLAÇ MEDİKAL SAĞLIK TURİZMİ İTH. İHR. SAN. TİC. A.Ş.** bünyesinde ortak olarak yer alarak sağlık alanındaki yatırımlara başlanmıştır. A gurubu seyahat Acentası belgesi sahibi olarak Sağlık Turizmi hizmetleri verme imkanına sahip olan şirketimiz yine Türkiye İlaç ve Tıbbi Cihaz Kurumu'ndan 2023 yılı Eylül ayında alınan ruhsat ile Ecza deposu da hizmet girmiş ve ilaç ve medikal ürün ticaretine başlanmıştır.

In the aftermath of the pandemic, with the aim of ensuring that all stages of health care, which is the basic need of every human, are provided in the fastest, most effective, most comprehensive and most accessible way, and to provide medication supply and qualified health care services, we became a partner of **ENR İLAÇ MEDİKAL SAĞLIK TURİZMİ İTH. İHR. SAN. TİC. A.Ş.** in August 2022 and started to invest in the field of health. Our company, which has the opportunity to provide Health Tourism services as a Group A Travel Agency certificate holder, has also introduced a pharmaceutical warehouse service with the license obtained from the Turkish Medicines and Medical Devices Agency in September 2023 and started to trade pharmaceuticals and medical products.
